EXPERIENCE

Intuit

2023-Present

Worked with multiple teams to: create a new design pattern library; establish MarTech UX team standards; and, create integrated workflow orchestrations for internal product applications.

The Home Depot

2021-2023

Led a research project dedicated to the legal document collection and processing service experience; as well as, the redesign for the in-store flooring associate order management system.

Abrigo

2018-2021

Led the design of the Tuxedo pattern library and the integration of the anti-money laundering product suite and the lending systems.

City of Austin Innovation Office

2018-19

Created a service to engage Austin citizens to civic news, activities, and fellowship using unorthodox events and services; namely, a stand-up comedy show centered around civic topics.

EDUCATION

Austin Center For Design

2017-2018

Design Research

Research thesis the gaps in civic engagement for citizens of lower income within the city of Austin, TX

University of Utah

2010-2016

Bachelors of Science in Business Entrepreneurship

Studied how to create and maintain functional businesses. Learned operations management methodologies, financial ideologies, and customer engagement and retention techniques.
